DAVIS & PLOMIN
MECHANICAL CONTRACTING

WIN A NEW DAIKIN FIT HVAC SYSTEM

(Provided by Thermal Equipment Sales)

& INSTALLATION

(Provided by Davis & Plomin)

\$20 Per Ticket

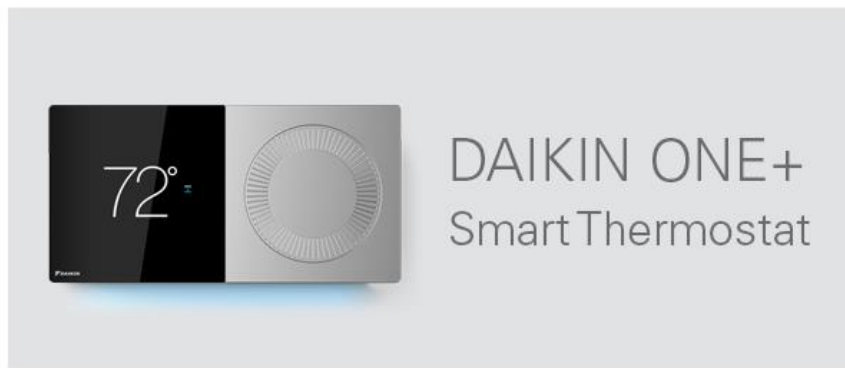

Deadline is Friday
October 31, 2020

*All proceeds will be donated to the
ASHRAE RP Fundraising Campaign*

The Daikin Fit system is a side discharge, smart HVAC system that won't compromise on comfort and connects to ducted solutions traditional to the unitary market. In a market saturated with expensive high-tiered inverters, the system provides a premium mid-efficiency inverter at an affordable rate. The low profile of the outdoor unit offers solutions when a traditional cube style cannot.

Integrated with an inverter variable-speed compressor, Daikin systems deliver the capacity required to maintain desired room conditions, typically reducing energy consumption by up to 30% or more. This technology minimizes temperature fluctuations and provides continuous cooling and heating comfort.

***See back side for details.

*** Can be transferred to anyone that needs it. Installation must be performed within 75 mile radius of Lexington, KY

Scope Overview:

Thermal Equipment Sales proposes to furnish a new VRV FIT unit to the winner of the raffle. This unit is to be size to match an existing unit size on the property of the winner not to exceed 5tons. Utility services are to match existing conditions. (HP to replace existing HP and dual fuel to replace gas furnace with DX cooling.) Davis & Plomin Mechanical proposes to install said VRV FIT unit and demolish the existing unit. D&P will provide new breakers sized for the new unit, refrigerant, and insulated line-set.

Construction Scope:

- Furnish and install (1) VRV FIT Unit (furnished by TES)
 - <=5 tons
 - Inverter compressor
- Disconnect and reconnect existing natural gas and condensate piping as required
- Disconnect and reconnect existing ductwork to indoor air handler/furnace
- Startup and checkout
- One-year labor 12-year parts warranty on equipment only through Daikin
- New PVC vent if needed for gas furnace

Exclusions/Clarifications:

- Patching of walls for new line-set
- Concrete pad
- Secondary drain pan
- Temperature controls is excluded – assumed reconnect existing control wiring
- Night and weekend work are excluded – assumed regular working hours
- Relocation of air handler, condensing unit, or ductwork

All proceeds will be donated to the ASHRAE RP Fundraising Campaign
