A Letter From The President

Hello everyone and welcome to the 2022-2023 chapter year. I'm excited and honored to serve as the president of the Bluegrass Chapter this year. I've been involved in our chapter in various roles since 2016 and have always been impressed by the dedication and leadership of our chapter officers. I've learned a lot from them and hope to continue their example while continuing to grow our chapter and drive value for our members.

More generally, I have to acknowledge what a landmark time this is for our industry and the built environment as a whole. As we consider the challenges of our time, it is evident just how important and influential our work can be. From leading the charge on building decarbonization, increasing system resiliency in the face of climate change, and reimagining how we approach ventilation and indoor air quality, ASHRAE and industry professionals like you are at the forefront. I find these

As such, the overarching goal of our chapter programs this year will be to deliver information, education, and inspiration on these core issues. We are also planning sessions with local officials to provide updates on local building codes and changes to inspections and code enforcement. Our first program is scheduled for 12 pm to 1 pm on Wednesday, September 21st at the [Thermal Equipment Training Center](#). Keep an eye out for a registration announcement on our chapter [website](#) and through our mailing lists. We're also excited to announce the return of our golf scramble benefiting ASHRAE Research during early October, our annual technical tour and holiday party in December, a technical seminar and Keeneland tailgate in April, and a cornhole tournament in May.

Thanks to all of our members and local companies for your support of ASHRAE and your involvement and participation in our chapter. Please feel free to email me directly with questions, feedback, or program and event ideas at c128@ashrae.net. Lastly, I would like to thank our board of governors and chapter committee chairs in particular for volunteering their time to continue building our chapter and organizing all of these great events.

Hope to see everyone soon,

David Rose
President, Bluegrass Chapter

2022-2023 Officers

Structural Engineering for Mechanical Engineers in HVAC

When: September 21, 12-1pm

Summary: What do mechanical engineers in HVAC need to know about structural design? This presentation will cover structural effects and considerations when designing mechanical systems and much more.

Presenter: Jordan M. Yeiser, PE

Jordan M. Yeiser PE is the owner of Yeiser Structural Engineering, a structural engineering firm in Lexington, Kentucky. Jordan opened Yeiser Structural in 2016 after working in the structural engineering industry as a Professional Engineer for nearly a decade. Jordan prefers to address issues onsite and directly with the contractor rather than in monthly meetings.

Where:

TES
680 Bizzell Drive
Lexington, KY 40510

Ticket Options (In Person Only):

Member - \$15
Non Member - \$20

Region VII 2022 CRC

A big thank you to all officers, delegates, and volunteers who represented the Bluegrass Chapter at this year's Chapter Regional Conference in Knoxville, TN. The event was a great success and we look forward to next year's conference in Louisville, KY.

Chill Out: How Airplane Air Conditioning Keeps You Cool

Air-conditioning systems are possibly one of the most complex systems in an aircraft, and there are many moving parts, computer logic and other systems that depend on it. [Read more](#)

Eugene, Oregon Aims to Become First City in Oregon to Ban Natural Gas

Eugene recently became the first city in the state of Oregon to advance a ban of natural gas in new buildings. The Eugene City Council, after months of deliberation, voted on July 27 to direct city staff

require all-electric construction; and direct the City Manager to formalize the City's goal of electrifying all existing residential and commercial buildings by 2035. Once the language is drafted, the city council will then vote on the final measures, which are expected to pass.

August 2022 Digital Journal

In case you missed it - 2022–23 ASHRAE President Farooq Mehboob's presidential address examines how the crucial personal and professional events of the past can help us leverage relationships, knowledge, and change. This, he says, is the formula for making an impact and embracing our diverse world.

Bluegrass ASHRAE

ASHRAE, founded in 1894, is a building technology society with more than 50,000 members worldwide. The Society and its members focus on building systems, energy efficiency, indoor air quality, refrigeration and sustainability within the industry. Through research, standards writing, publishing and continuing education, ASHRAE shapes tomorrow's built environment today.
